Style										
Content										
Originality										
Response to questions										

The following is for guidance:

Style: Logical organisation, illustrations appropriate, clear and readable, plenty of time for questions? Audible and good pace?

Content: Clearly stated objectives; Methods including data analysis clear and appropriate; Results comprehensible; Reasoned conclusions?

Originality: New contribution to knowledge; Overall science merit?

Response to questions: Excellent and intelligent response to questions which were well understood?

Feedback (Please try to provide one or two comments to help the students improve)

Highlights of the talk?

Aspects which could be improved?

Thank you.
